

Bird Netting

Birds occur at every places where they get shelter & food also. But some birds can harm to your office premises, homes by damaging your property, they spread serious health diseases by dropping sheets, Feathers and crated premises messy.

We at Swami Samarth Pest Control providing you best services to protect your home, office premises from birds like pigeons, sparrows, crow etc. by providing you best quality nets.

How We Help You?

Our Expert analyzed the area first & then advised Nets to protect your valuables from birds. Our trained persons have advance equipments against bird's protection. They know very well that how to get rid of birds from home & office premises.

Bird Netting

The quality of Nets used for Birds are very superior & having technologies which are long lasting, hygienic, Reasonable and does not harm the birds in any way. This type of net provides protection from Pigeon, Sparrow etc. Nets used are nearly invisible as they are translucent, waterproof, very strong and durable. Aesthetically most appropriate for residential & commercial purpose.

Bird Spikes

Bird Spike is a device consisting of long needle like rods. They are made of either PVC or pure stainless steel. Bird spikes create a physical barrier which physically prevents pest birds from landing, perching, or roosting.

Wide range of bird spikes can be successfully installed on locations like Ledges & Parapets, Railings, Beams, Air Conditioners & Chimneys, Sign Boards, and Columns etc.
